

FOR IMMEDIATE RELEASE

EMS, Inc. Wins Top Award at CoolTECH 2010 Event

June 4, 2010

EMS, Inc the leading provider of rapid product development products and services including Z Corp 3D Printers and 3D Scanners won the top award at the CoolTECH 2010 event in Tampa, Florida. CoolTECH 2010 was very well attended and included 46 exhibitors competing for the top award for best new technology.

CoolTECH showcases Florida companies focused on innovative products, technologies and services in emerging markets. EMS has long been an innovator in applying value added techniques and methods using advanced technologies like 3D Printers, 3D scanners, and virtual clay sculpting software and hardware.

EMS highlighted some of the products they helped develop and bring to market at CoolTECH 2010 including Looney Pals Shoes, SwiftEraser writing instruments, and Johnnie-Lift sanitary products.

In addition, EMS demonstrated some of their medical model 3D printing and 3D scanning capabilities. This includes 3D scanning of custom cranial implants and creating rapid prototypes used in trauma and neuro-surgery procedures. This allows a surgeon to perform these operations faster with less “open time” for the patient because the custom implant is a perfect match.
