

FOR IMMEDIATE RELEASE

EMS, Inc. Announces 3D Technology Day – 6 City Tour

September 27, 2010

Engineering & Manufacturing Services Inc. (EMS), the premier provider of rapid product development equipment and services including Z Corp 3D Printers and 3D Scanners, is excited to announce the latest dates of their very popular and informative 3D Technology Day events. Learn how to design superior products and watch live demonstrations at any of the free educational events. This year's events will be held in 6 cities throughout the southeast starting in late October as follows:

- Tampa, FL – Oct. 26, 2010
- Orlando, FL – Oct. 27, 2010
- Ft. Lauderdale, FL – Oct. 28, 2010
- Atlanta, GA – Nov. 2, 2010
- Huntsville, AL – Nov. 3, 2010
- Birmingham, AL – Nov. 4, 2010

These EMS 3D Technology Days will be structured similar to our past events as an open house style; meaning you can come anytime you want and see what interests you. EMS will have their engineering experts in the fields of rapid prototyping, 3D scanning, 3D CAD who will offer live demos as well as be able to answer any questions. Unlike typical seminars, you will not be sitting through boring Powerpoint presentations or high pressure sales pitches, just live demos of all EMS's products and services.

Products to be demonstrated at this year's event include Z Corp 3D printers, which include the latest Z Builder Ultra high resolution 3D printer and Z Corp hand held 3D Scanners. In addition, 3D scanners from Konica-Minolta and Surphaser will also be on hand. EMS will also have their Engineering Services Group on hand to discuss their rapid prototyping, reverse engineering and product design services in detail to anyone interested.

Take advantage of any of these free events, but pre-registration is required and all attendees will receive a coupon for a discount on all EMS products or services.
