

For Immediate Release:

## EMS Inc. and InnovMetric Software Inc. Announce Bundled Reseller Partnership to Deliver InnovMetric's Advanced PolyWorks® Software Solutions for 3D Metrology

TAMPA, FL – July 19, 2016 – EMS (EMS, Inc., [www.ems-usa.com](http://www.ems-usa.com)), one of the largest single source providers of advanced 3D Scanning and 3D Printing solutions, and InnovMetric (InnovMetric Software Inc., [www.innovmetric.com/](http://www.innovmetric.com/)) today announced a formal bundled reseller partnership to distribute InnovMetric's PolyWorks® software solutions in the United States.

"InnovMetric's PolyWorks, the universal 3D metrology software platform, is a great addition to EMS's line of 3D Scanning products. As a PolyWorks authorized reseller, we are excited to be able to offer PolyWorks | Inspector™ and PolyWorks | Modeler™ to our customers who require powerful 3D measuring solutions for inspection, calibration, alignment and reverse-engineering needs," says Mark Kemper, CEO of EMS, Inc.

EMS will begin reselling InnovMetric's PolyWorks with EMS's line of 3D scanning products immediately. PolyWorks | Inspector is a powerful industrial 3D metrology software solution to control tool or part dimensions, diagnose and prevent manufacturing and assembly issues, guide assembly building through real-time measurements, and oversee the quality of assembled products by using non-contact point cloud digitizers and single-point contact-based probing devices. PolyWorks | Modeler is a comprehensive reverse-engineering software solution that allows extracting optimal CAD entities from polygonal models of digitized parts to serve as a starting point in professional CAD modeling solutions.

"Partnering with EMS enables InnovMetric to efficiently expand our sales and distribution network in the Southeast and Midwest regions, through an experienced provider of 3D scanning and inspection solutions" says Marc Boulanger, InnovMetric's Senior Vice President of Sales.

### About EMS

Founded in 2001, EMS, Inc. is a leading single source provider of 3D Scanning and 3D Printing solutions to customers across a range of industries including aerospace, automotive, military, consumer products, medical and art. With over 15,000 projects completed and hundreds of systems sold, EMS has the equipment, experience and expertise to help clients streamline product development, inspection and reverse engineering through advanced 3D technologies. EMS is headquartered in Tampa, FL with offices in Detroit, MI and Atlanta, GA.

### About InnovMetric Software

InnovMetric Software Inc. is the leading provider of universal 3D metrology software solutions. The world's largest industrial manufacturing organizations (Toyota, GM, Volkswagen, Honda, BMW, Daimler, Ford, Rolls-Royce, Pratt & Whitney, Boeing, Embraer, Bombardier, Apple, and many more) trust InnovMetric's PolyWorks® software solutions and associated technical services to maximize the benefits of 3D measurement technologies for their engineering and manufacturing applications.
